

Chemical Bunkering Skid Package **Apache Energy Pty Ltd, Western Australia.**

Chemical Bunkering Skid

A custom built, transportable self-contained (hose reel) skid comprising all the equipment necessary to pump corrosion inhibitor chemical from industrial bulk containers (IBCs) carried aboard a platform support vessel to an offshore platform, offshore Western Australia.

Scope includes design, offshore verification for dynamic lifting and tropical climate conditions, witnessed inspection, factory acceptance testing, meeting quality assurance requirements, preparation for shipment and delivery, spare parts and documentation.

Package included hydraulic power pack driving hose reel (controls on both sides depending on operator line of sight), emergency breakaway couplings, emergency release couplings (hydraulically activated), control cabinet contained all mounted within a fully self banded base frame tank.

BESPOKE ENGINEERED SOLUTIONS FOR OIL & GAS, INDUSTRIAL PROCESS & FUEL MANAGEMENT

Offering full scope from concept to completion through design, project management, assembly, testing & associated services backed by internationally renowned pump and compressor manufacturers
