

Quick Flush Tank Skids

BP Bulwer Island Refinery, Pinkenba QLD.

Quick Flush Tank Skid Packages

A total of seven Quick Flush Tank Skids designed, manufactured and tested by AFH. Skids feature a 600L Quick Flush Tank and sample box for jet fuel sampling and additive injection if required.

The skids are capable of recycling jet fuel back to the storage tank or disposing to slops via two 1:1 pneumatic diaphragm pumps. A 15L slops disposal tundish is included with each skid. The Skid packages contain instrumentation to ensure the correct function of the skid including a tank level gauge and pump discharge pressure gauges.

Skid packages delivered with full factory acceptance testing, 316SS materials of construction, intricate tubing (with vent and drain lines), in line with client specification and quality assurance requirements.

BESPOKE ENGINEERED SOLUTIONS FOR OIL & GAS, INDUSTRIAL PROCESS & FUEL MANAGEMENT

Offering full scope from concept to completion through design, project management, assembly, testing & associated services backed by internationally renowned pump and compressor manufacturers
